King County and the City of Seattle invite you to a public meeting on a collaborative salmon habitat restoration project on the Lower Tolt River.

The project, located within Tolt MacDonald Memorial Park, will:

- ▶ Relocate the river levee to help restore the river's natural habitat conditions
- ▶ Provide a new levee-top trail and alternate parking areas
- ▶ Maintain flood protection
- ▶ Benefit threatened Chinook salmon

Come review the project design and talk to project team members about this exciting community effort!
